

PROPERTY INFORMATION

IN PARTNERSHIP WITH OTHERS, THE TASMANIAN LAND CONSERVANCY PROTECTS NATURE BY MANAGING THE HIGHEST PRIORITY AREAS FOR NATURE CONSERVATION IN TASMANIA

This is achieved by purchasing priority properties to retain and manage as a permanent reserve, by purchasing then on-selling the property with a protective covenant on title, or by accepting land donations and managing the land in partnership with others.

We welcome your interest in considering your land for inclusion in our conservation programs. Please provide us with some basic information about the parcel of land you are interested in discussing.
